

## **Sarah Sinclair – Biography 2010**

Sarah Sinclair is a civil engineer and manager with 20 years consultancy experience in NZ and the UK. Having spent 16 years in the UK working with flood risk, environmentally sensitive solutions and adapting to climate change, Sarah moved to New Zealand with her family in 2006, to work with SKM in Auckland. At SKM, an engineering and science consultancy, Sarah is tasked with helping project teams bring innovative, sustainable outcomes to our infrastructure and planning work, to make it "business as usual". Sarah is passionate about the difference that engineers and scientists can make to sustainable infrastructure, and about making the business case for sustainable outcomes.

As well as being a Sustainability Practitioner, Sarah is SKM's Client Manager for the new Supercity, and has a strong interest in sustainable business advocacy across the new City and CCOs.

Sarah has been involved with SBN as an active participant for the last 3 years, and represents the Northern Regional Advisory Board. She is also a member of the Innovation Council, and Honorary Treasurer of the Institution of Civil Engineers New Zealand.
